Nursing Informatics Bootcamp

COURSE DESCRIPTION
This intensive two day course focuses on current informatics trends and issues in health. It includes content for nurses interested in becoming Certified Informatics Nurses. Other clinical professionals working in informatics may wish to take the course to become exposed to the course topics.

COURSE OBJECTIVES
- Discuss the scope and standards of nursing informatics practice
- Describe professional practice, trends and issues within the informatics nurse role
- Explore management and leadership issues affecting informatics in healthcare settings
- Identify key concepts in informatics, information technology, information management, knowledge generation and data security
- Consider human factors in relation to information technology systems
- Describe models and theories associated with informatics
- Delineate steps of the system life cycle as it applies to information technology in the health setting

TOPICS
- Foundations of Practice
- System Design Life Cycle
- Data Management and Health Care Technology
- Current Issues
- Case Studies

CE INFORMATION
Note: This program is approved for up to 14.5 continuing education (CE) hours for use in fulfilling the continuing education requirements of the Certified Professional in Healthcare Information & Management Systems (CPHIMS) and the Certified Associate in Healthcare Information & Management Systems (CAHIMS).

Axxess Consult Inc. is accredited as a provider of continuing nursing education by the American Nurses Credentialing Center’s (ANCC) Commission on Accreditation. 14.0 hours of continuing education credit will be awarded upon completion of this offering. Full attendance at the program is required.

**BIOGRAPHIES OF THE PRESENTERS**

_Susan K. Newbold, PhD, RN-BC, FAAN, FHIMSS, CHTS-CP_, is a Healthcare Informatics Consultant, Franklin, TN. Most recently she was the Education Lead for the implementation of the Electronic Health Record (EHR) at the Hospital Corporation of America, Nashville, TN. She is uniquely qualified to teach this course as she has experience in the vendor, consulting, academic and hospital world. Dr. Newbold is Board Certified in Nursing Informatics and initiated the first review course in nursing informatics in 1995 which she taught over 100 times. In 2001 she won the Sigma Theta Tau International Honor Society of Nursing International Technology Award for Knowledge Advancement for this course.

_Mary Beth Mitchell, MSN, RN-BC, CPHIMS_, is the Chief Nursing Information Officer (CNIO) for Texas Health Resources, a 14-hospital faith-based healthcare system. In the role of CNIO Ms. Mitchell oversees the nursing adoption, utilization and optimization of the electronic health record (EHR) in Texas Health Resources. She also serves as the liaison for all information technology-related nursing projects. Ms. Mitchell has worked in nursing informatics for more than 10 years, both at the hospital level at Texas Health Presbyterian Hospital Dallas, and as senior director of applied clinical informatics for Tenet Healthcare. Ms. Mitchell was previously an ICU registered nurse, ultimately working as a clinical nurse specialist in pulmonary and cardiac care.
