

School of Nursing Donors—2007

From the Development Director

The year 2007 was a banner year for UW-Madison School of Nursing philanthropy. The school received nearly two thousand gifts worth more than \$1.8 million. On behalf of our students and faculty, I extend a sincere thank you to all the donors listed on the following pages.

The largest gift was from the estate of Ethel C. Allen to provide scholarships for RNs who want to earn their bachelor's degrees. We also received a gift of \$250,000 from Mary "Penny" Enroth for our new building. Neither of these women is a nurse, yet both realized the important role that nurses play in keeping people healthy.

I have heard nursing compared to clean air and water—you don't appreciate it until it is threatened. As Dean May and I tell the good news story of the School of Nursing, we emphasize that our school and profession will be threatened without the substantial increase in resources that allows us to grow.

Our alumni and friends are not only providing financial support, but also encouraging and inspiring others to remember the school. The Capital Campaign Steering Committee is planning a nursing summit/campaign kickoff for October 1–3, 2009, and has engaged alumni around the country to help plan this signature event. You'll find more details in the next issue of *Nursing Dimensions*.

We appreciate everyone who has invested in the UW-Madison School of Nursing and can promise an exponential return on your investment through the outstanding work of our students and faculty. Thank you.
